WETASKIWIN, ALBERTA, THURSDAY, NOVEMBER 17, 1921

V. C. French, Publisher

Townsite Company's Property Included In Tax Sale List

Annual Ratepayers' Meeting on December 2nd. James Watson appointed Plumbing Inspector. Aldermen voted Salaries. No Meat Inspector to be appointed this year. Favorable Report on Gas Well.

A regular meeting of the city council was held on Tuesday evening, with all members present except Ald. C. D. Hanson.

The minutes of the last regular meeting were read and adopted.

There was read a communication from the Provincial Health Department, Edmonton, re the matter of John Lee, advising the council to refer to Dayland and Macleod, whose cases of this kind were properly looked after. The Secretary was instructed to write to each place for information needed.

A communication was read from Alex. Knox re the Townsite Co., requesting that the property of the said company be included in tax sale list. The matter was left to the City Solicitor to attend to.

There was read a communication stating that no market was yet available whereby the City filling office could be sold at a satisfactory figure. The communication was filed.

A communication was read from the Women's Institute, per Mrs. Poole, asking for certain information regarding Municipal Hospital. The matter was left with the secretary to forward suitable reply.

The resignation of W. R. Sheering was presented and accepted with regret.

A resident of the Gwynne district made application for appointment as a member of the City Hall. The council instructed the secretary to write requesting that no supply will be made.

Regarding the appointing of a meat inspector, it was recommended that no inspector be appointed this year.

An account of Mr. R. R. Riddings, of the City of Regina, was read.

The communication of Mr. C. Smith re purchasing of two lots next to the Criterion Hotel, was referred to the finance committee.

A communication from Supt. Watson re prices on certain oils was referred to the secretary-treasurer to write for prices.

A communication from Supt. Watson re a gas trap he installed in the gas well, was asked to be recommended.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor, Wetaskiwin Times:

Statements have been given to the press that there were certain "dark happenings" at the Wetaskiwin, U.F.A. convention and that in consequence there is a split in the ranks of the U.F.A.

The members of the Executive Committee of the U.F.A. Political Association wish to state emphatically that all the proceedings at the convention were clean and open, and that nothing transpired of which the public has not been made aware.

No delegates took part in the convention who were not duly accredited, and in the selection of the candidates every nominee was given an absolutely square deal.

We wish also to state that there is no split in the U.F.A. ranks; that all the members of the Executive Committee are behind the candidate, Mr. Warner, who was made the unanimous choice of the convention; and that the action of one disgruntled official, who, under our demand, has finally seen in his resignation from the Board, constitutes no split in the U.F.A., but is confined to one man, and has been the means of further cementing the loyalty of our members to the cause.

The nomination of Mr. Warner was unanimous on the spontaneous motion of the official, who, as has been said, who had also previously pledged himself to support the choice of the convention.

We feel sure that in the interests of truthful justice you will be willing to publish this letter, which has been signed by every member of the Executive of the Strathcona U.F.A. Political Association.

"Thanking you in anticipation of this courtesy, we are,

Yours faithfully,
Jasper Holt, M.L.A., President
Mrs. Winifred Ross, M.L.A.
Mrs. E. J. Southwick, Educator
Mrs. W. Archibald, Phonician
E. R. Rasmussen, Wetaskiwin
John A. Davis, Cleric
H.B. Peters, Fort Saskatchewan

SKATING - HOCKEY FOR WETASKIWIN

The citizens of Wetaskiwin who are fond of skating and hockey are glad to hear that a skating rink is being built, and the people of this community may look forward to a good season's sport. The citizens behind the project are C. Smith, G. L. Gehard and B. M. Parker, who have formed themselves into a board of trustees, and the rink will be managed by Stewart Poole. The work of making ice will commence as soon as weather will permit.

A favorable report of the gas well pressure was received and filed.

Notice of motion was introduced for the appointing of a returning officer for the next meeting of council for the forthcoming municipal elections, to be held in December.

The date for the annual ratepayers meeting was fixed for December 2nd, at 8 o'clock, at the City Hall.

The finance committee recommended that the old A.G. building be offered for sale at \$400.00.

The wage accounts were then passed and payment made.

Meeting adjourned.

ACCUSED OF THEFT

J. Michael, of the Chesterwood district, was brought before E. B. Chandler, J.P., on Tuesday, charged with the theft of about \$400.00, and was sent up for trial at the next court.

He was arrested at the Wetaskiwin Police Station on Tuesday, November 16th, by Chief of Police Marshall.

VETERANS CELEBRATE
SIGNING OF ARMISTICE

About one hundred and fifty war veterans of the district and district assembled in the Parish hall on Friday last to celebrate the signing of the Armistice. The proceedings opened with the veterans standing with bowed heads while Bugler Miller sounded "Last Post" in memory of fallen comrades. All then sat down to a sumptuous feast which was kindly provided by the local branch of the Daughters of the Empire. After the cravings of the inner man had been satisfied, the time was devoted to singing and song and recitation of old friendships, until the hour of midnight, when the proceedings closed by the singing of the national anthem.

At present had the most enjoyable time. A hearty vote of thanks was given to the Daughters of the Empire and also the committee who had charge of the celebration, for making the occasion such a success.

W. C. T. U.

A message cabled to the Chicago Examiner has stated that though British delegates to the Washington conference held at San Jose, Calif., voted in co-operation with the U.S.A. in the recent amendments to the League of Nations, they may not be a member of the W.C.T.U., and you may not be in sympathy with the movement, but you may have our members. We were formed by creating sentiment. Forty years ago this sentiment, created by these simple means of women, induced every legislative district of the province to place scientific temperance teaching on their school curriculum, and this sentiment has spread into Canada and around the world, until scientific temperance and affiliated subjects are taught more or less efficiently in thirty countries. The war was the outcome of this sentiment. World wide prohibition will be the result of sentiment.

At a recent conference of the Methodist church held at San Jose, Calif., voted in co-operation with the U.S.A. in the recent amendments to the League of Nations, they may not be a member of the W.C.T.U., and you may not be in sympathy with the movement, but you may have our members. WEDDINGS

A popular and pretty wedding took place at Knox church, Calgary, on Thursday, last week, when Carl William Walling married Miss Dora Dugan, daughter of Mr. and Mrs. J. Dugan of this city. The ceremony was performed by Rev. J. McCarty, and was a very quiet, only a few intimate friends being in attendance. Mr. and Mrs. Walling are taking their honeymoon at Peace Street, and will be extending the honeymoon to the happy couple.

MITCHELL - BARRETT

On Tuesday evening, November 15, John Henry Mitchell and Marion Gertrude Barrett were united in the bonds of holy matrimony at the Imperial oil well on the Peace Couper river, where they are now in receipt of authentic information to the effect that the well has been capped for three weeks and that oil is being forced from every joint in the casing. It is said to be more in the form of gasoline, up to the present, that it is gradually becoming a nature. The pressure is tremendous and is being described as "the seventh wonder of the world." Your correspondent is told that nothing more momentous has been known in the history of oil.

WHYTE & ORR LTD. DONATE CURLING CUP

With a view of encouraging the curling game along the line of the C.P.R. from Wetaskiwin to Hardisty, inclusive, and possibly bringing a number of our most enthusiastic curlers who have not been able to attend bonspiels together in competitive games, the firm of Whyte & Orr, Ltd., has decided to offer for competition a cup which will be competed for along the lines of the Ash Trophy.

The trustees of the cup are H. W. Massey, chairman, Wetaskiwin; F. E. Nickel, Killam, and E. J. Slavik, Dayland.

The cup will be placed in possession of the Dayland Curling Association for the first challenge on December 15. By limiting the towns allowed to challenge for this cup to those from Wetaskiwin to Hardisty, travelling expenses and loss of time will be kept down and at the same time there will still winter be six or seven curling clubs entitled to play for it, and it should be the means of developing the quality of the game in this country. Each competing club should be represented by two rinks, and four clubs each shall be played.

The curlers of the district in which the competition shall take place are grateful to Whyte & Orr, Ltd., for the handsome cup they are offering and for the interest they are manifesting in promoting the "curling" game.

GREENFIELD CABINET
COVER DEPARTMENTS

WITH A FINE COMB

Edmonton, Nov. 16.—Living up to the promise of the Greenfield cabinet company in the administration of the affairs of the province, members of the Greenfield cabinet have been over the departments with a fine toothed comb, and have already succeeded in purchasing a finished article. Suppose, for instance, we want a point of finished wood, it would take from 100 to 200 pounds of the raw material to purchase a finished article. Suppose, for instance, we want a point of finished wood, it would take from 100 to 200 pounds of the raw material to purchase a finished article. Suppose, for instance, we want a point of finished wood, it would take from 100 to 200 pounds of the raw material to

Conditions in Canada Are Favorable

The receipts of grain at western elevators continue to be greatly in excess of those of last year, or of any prior year with the exception of 1915. To some extent the grain has been deterred by inclement weather and the low prices, but has been disappointing to the growers. As a whole, however, the proceeds of the harvest, even at the lower prices, should enable the growers to liquidate current indebtedness to a satisfactory extent. Crop sales have already stimulated business many lines of which show a distinct improvement over their condition in September. The extent of unemployment, the number of business failures and the inadequacy of the return from agricultural enterprises are not nearly as pronounced in Canada as in other countries. Among the factors disturbing the business of the world at the moment are the unemployment, which prevails in the United States and Great Britain, necessitating in the latter country extraordinary measures of relief, and the extravagant government expenditure reported from many countries, notably Australia, in spite of continued business depression. These constitute dangers, or conditions, which return to stable conditions are still some distance away. Conditions in Canada are undoubtedly favorable as compared with those prevailing elsewhere, and serious as the conditions confronting her people, it does not appear that their solution is beset with difficulties as grave as those confronting other countries.

GWYNNE FARMERS ARE THE GUESTS AT A CAMPAIGN FEAST

A special meeting of the Gwynne local unions of the U.F.A. and U.F.W. A. was held at the residence of E. R. Ramson on Saturday. The members of the Gwynne and the neighboring locals, with their friends were the guests of Mr. Ramson at a Thanksgiving supper, followed by a reception in honor of the U.F.A. and U.F.W. A. The feast was given by Mr. D. V. Warner, and the fine home was taxed to the limit to accommodate the hundred and fifty who accepted the invitation.

The old fashioned Thanksgiving meal, with the traditional turkey and fixings and other tempting viands on a generous scale was served in the spacious basement.

Supper disposed of, P. H. Herbert, of Strathcona, on the invitation of the host, gave an impromptu address on "Thanksgiving," in which he treated the history and significance of the festival and the many interesting customs associated with it in the different countries of both the old and new worlds. He also feelingly referred to the day as one of celebration of the anniversary of the armistice in the great war, and commended the plan of combining the two events.

The gathering then resolved itself into a business meeting, and discussed among other matters, the proposed increase in rural telephone rates, announced by the provincial government. General regret was naturally felt at the necessity for this step, and it was decided to ask the Minister to make a determined effort to reduce both costs of construction and costs of operation before raising the rates. During the evening Mr. Warner was called upon for an address, and he responded with a masterly exposition of the aims and objects of the farmers' political movement.

Mr. Warner regulated the statement of his opponents that the farmers are seeking class legislation, and pointed out that class legislation is the very thing they are seeking to combat. He advocated a more equitable distribution of the burden of taxation, and the placing of it upon the shoulders best able to bear it, more particularly by the imposition of a sharply graduated tax upon the incomes of both individuals and corporations.

CONFERENCE SPECIFIES DEFINITE TONNAGE FOR THREE NAVAL POWERS

Washington, Nov. 15.—Delegates to the naval disarmament conference, and not recovered today from the shock of Secretary Hughes' blunt presentation yesterday of the proposal for immediate reduction of the fleets of Great Britain, the United States and Japan, and for a ten-year naval holiday.

The concrete terms of the United States plan laid before the opening session of the conference on limitation of armament were still in the hands of the naval experts of the two other powers chiefly concerned. Pending their conclusions, no further steps are probable. The spokesmen here for Britain and Japan made none but guarded comments on Mr. Hughes' proposals. As far as they went, those statements were encouraging, and it was certain at least that no possibility of flat rejection of the American plan was to be expected. It was the basis of reaching what are now conclusions the conference brings forth.

What further steps for study, the United States plan today began to stand out in its true proportions. Apparently it is far more than a ten-year naval holiday that is projected, coupled with immediate heavy reduction of the fleets of the three powers, beyond that is a third equally blunt and direct for a continuing agreement to limit the size of battle fleets permanently.

That is what Mr. Hughes' naval replacement plan really amounts to. What it really means

1. That there should be a naval holiday for not less than ten years.

2. That the United States scrap thirty capital ships, built and building.

3. That Great Britain scrap nineteen capital ships, built and building.

4. That Japan scrap seven capital ships and other ships for a total tonnage reduction of 448,328.

In other words, that the powers take their first step from the "naval race" in naval armaments, by wiping out at one full sweep sixty-six of their monster ships, with a total of 1,578,943 tons.

Thus, at the first sitting of the conference President Harding has placed all his cards on the table and is now up to the other nations to show theirs.

As the secretary of state outlined his proposals, it was interesting to note the effect upon the delegates. The Japanese, grouped together at the opposite end of the table, sat motionless, inflexible, inscrutable. No word, nor whisper, nor gesture passed between them; not a sign to reveal what they thought. The Chinese were more outwardly moved. They leaned forward, bent upon every word, listening almost with bated breath. The French, however, appeared less concerned. Mr. Briand, who with Mr. Viviani sat at the right of the United States delegation, made no sign, while Viviani sat back with his thumbs in his vest, apparently oblivious to what was being said. The British reacted more to the United States statesmen's proposals. Mr. Balfour, who looks much older than when in Canada last, and a little tired, sat straight up in an unfeigned surprise. Lord Lee leaned forward with intense interest, and as Mr. Hughes announced the United States' willingness to scrap thirty of its capital ships, Lord Balfour swung round in his chair as though he disbelieved his own ears.

Other important recommendations which Mr. Briand was not prepared to discuss in detail will also be made, with respect to the methods of the enforcing of the act, and the supply of liquor.

Mr. Briand is going one step better than this. He is putting the proposition up to well known organizations to join with the government in accomplishing proper enforcement of the act, and particularly proper respect for the law. He is asking these organizations, including business organizations, to give their co-operation in developing a wholesome respect for the law.

The people, says Mr. Briand, must consider the law in the same class, with any other law, to be observed, and not ridiculed.

EASTERN CANADA FOR CHRISTMAS AND NEW YEAR'S

With the advent of the Xmas and New Year holiday season, the Canadian National Railways have arranged special Homesteaders' fares to Eastern Canada, according to an announcement made elsewhere in this issue.

The form of a display advertisement. These special fare concessions are on the basis of single fare and one third for the round trip and apply from all stations in the prairie provinces. Tickets are on sale from December 1st, 1921, to January 15th, 1922, both days inclusive, and are good for return up to three months from date of issue.

Tickets may be routed via the "Continental Limited" through Cochrane, leaving Winnipeg daily at 11:00 a.m. or via "The National" through Port Arthur, leaving Winnipeg daily at 5:00 p.m., going or returning same route or going via one route and returning via another specified above.

Reservations on these tickets may be made in the new all-steel tourist sleeping cars, but not in standard sleeping cars.

Goods worth \$50.00 have been pilfered from G.T.P. railroad cars between Vancouver and Edmonton during the past few months, it has been announced. The Edmonton city police and railroad police are investigating.

THE BAD COLDOF TODAY MAY DEVELOP INTO PNEUMONIA TOMORROW

Next to consumption there are more dangerous diseases than any other lung trouble.

Pneumonia is nothing more or less than "Lung Fever," or as it used to be called, "Inflammation or Congestion of the Lungs."

The cough accompanying pneumonia is at first frequent and hacking, and the expectoration tough and colorless which soon, however, becomes more copious and of a rusty, red color; the lungs become congested and the bronchial tubes filled with phlegm, making it hard for the sufferer to breathe.

On the first sign of a cold or cough you should get a bottle of Dr. Wood's Norway Pine Syrup, and thus prevent the cold developing into some serious lung trouble.

Dr. Wood's Norway Pine Syrup

UNITED FARMERS
POLITICAL MEETING
AT STRATHCONATo The Electors of the
Strathcona Federal Constituency

The opening gun in Strathcona, so
far as the city is concerned, was fired
Saturday evening by the U.F.A. forces
at a meeting in the Assembly Hall at
the Public Library, when addresses
were delivered by the candidates, Mr.
D. W. Warner, and by F. H. Herbert,
and W. J. Jackson.

Mr. John Davis, of Clover Bar, pre-
sided over an enthusiastic but orderly
gathering.
Mr. Herbert, the first speaker called
upon, traced the history of the farmer
movement in the west, and clearly
showed how the farmer had been
compelled by economic pressure to
organize and ultimately to take the
political field. Reading from an issue
of the Montreal Star, he showed how
the necessity for the latter step had
been forced by what is now one of
the chief government organs, which had
even promised its active support and
substantial financial aid to the
movement, though the promises had
not been fulfilled. Mr. Herbert re-
peated the suggestion of Mr. Mc-
Lennan and others that the movement
had been a failure, and quoted the
words of Premier Greenfield, that
"though the farmer might have his
head high in the air, his feet were
firmly planted on the ground."

Mr. W. J. Jackson, replying to a
speech of Mr. Douglas, the Govern-
ment nominee, contradicted his state-
ment that speakers at the farmers'
meetings were not discussing the
issues of the election, but confining
themselves to a straight class appeal.
No speaker sent out from the U.F.A.
committee rooms had any other mis-
sion than to discuss election issues,
and they were at all times willing to
do this in the fairest possible manner.
He referred to Mr. Douglas' reported
statement that if the farmers' tax
proposals were carried into effect they
would be faced with a levy of 75 per
cent on their quarter section, as the best
they had heard for a long time. The
present per capita tax for federal pur-
poses was \$67, which meant for his
family of four a total of \$268, per
annum. So that on Mr. Douglas' figures
he would escape with \$150 on his
half section of land, or a little
more than half his present tax.

Dealing with tariff issues, he went
on to show that the protection system
had been a prime factor in present
economic conditions in the Dominion,
by encouraging the gathering of great
accumulations of wealth in the hands
of a few privileged persons and cor-
porations. He quoted the case of a
western manufacturing company which
had paid a dividend of 72 1/2 per cent
after paying all taxes, and that of a
Canadian manufacturing concern which
had paid one year 300 per cent on its
invested capital, and had paid out in
dividends or accumulated as surplus
nearly nine and a half millions of
dollars on a cash investment of only
half a million in the space of fourteen
years, as instances of shameful mis-
use of the protective system which
had been inaugurated for the building
up of infant industries in a young
country.

He showed that manufacturing
costs were now so higher in Canada
than in the States, and that goods
manufactured here were being sold
in Europe at lower prices than were
charged for them in Canada; and ar-
gued that the time had arrived for the
gradual elimination of the tariff sys-
tem and the substitution of one of
direct taxation as advocated in the
Farmers' platform.

Mr. Warner, the candidate, was next
introduced by the chairman. He dealt
at length with the different cam-
paigns, and clearly indicated his
stand on each of them. With the en-
ormous burden of taxation to be faced
he thought it was essential that the
fiscal system should be reformed and
direct taxation adopted, with an in-
come tax, sharply graduated, on both
personal incomes and those of corpo-
rations. There should be an inher-
itance tax, also sharply graduated, and
a tax on unimproved land values, in-
cluding natural resources.
He advocated a revaluation of the
railways owned by the government,
so as to bring them down to actual
current values, in the hope of being
able to thereby effect a reduction in
the barter freight rates. He also
favored a revaluation of the lands sold
to returned soldiers under the govern-
ment settlement scheme. It was im-
possible for the men to make good on
today's prices for their products, and
a revaluation might have the effect of
putting it in their power to make a
living on the farms and repay their
indebtedness on the reduced basis,
and prevent them throwing up their
hands and quitting as so many of them
had already been compelled to do.
If elected, he would be a repre-
sentative of the whole community of
the Strathcona constituency, and not of
any particular section. Although a
farmer all his life, he was interested
in city enterprises as a shareholder
and director. He understood the pro-
blems and difficulties of the business
community of the working men of the
city, and felt himself fully competent
to act as their representative.
Questions relating to the campaign
issues having been raised, some were
handed in to the chairman, but being
found to relate to personal matters,
were ruled out of order, though Mr.
Davis promised to give answers to
each letter the conclusion of the meet-
ing with full liberty to publish them
if desired.

Ladies and Gentlemen:

Having been honored with the nom-
ination for member of the House of
Commons for this Constituency by the
U.F.A. and U.F.W.A., I am appealing
to the electors, for support on our of-
ficial platform, which is the New Na-
tional Policy, and which Platform we
believe and state is in the interests
of all the people of Canada. I feel that
it is incumbent upon me to give you
a summary of my views on some of
the planks in the Platform, that you
may have some idea of my personal
opinion on the issues before us at this
time.

Although nominated by the Par-
tisan Organization and notwithstanding
the serious financial conditions

I am convinced that it is only by
the labor, and honest, earnest, en-
deavor of all classes, working sym-
pathetically together that our Coun-
try will again be placed on a safe,
contented, and prosperous basis. While
taxation is heavy and will, no doubt,
continue to be so on account of our
War obligations, the policy of our
Government is to attempt to place a
large share of taxation on the incomes
and interests which are best able to
bear it, and to enhance the ability of
all citizens to pay their fair share of
taxation by changing the method which
at present puts two or three dollars
in the pockets of the protected in-
terests for each dollar that the sys-
tem puts into the public treasury.

D. W. WARNER

U.F.A. Candidate for Strathcona

U.F.A. Committee Rooms have been opened at 10122
Whyte Ave., Phone 31831, Edmonton South, also at
Leduc, Wetaskiwin and Ponoka, where a copy of our
Platform may be obtained and where our Committee will
be pleased to meet all Electors who are interested in sup-
porting our cause.

Official Agent,

F. H. Herbert

they are in at the present time, by
reason of excessive freight rates, a
high protective tariff, and the en-
hancement of the price of commodities,
we have to buy, and restricting the mar-
kets in which we have to sell, with the
price of all farm products below
the cost of production, we still up-
hold the motto of "Equal Rights for
All and Special Privileges to None,"
and as their nominee I am pledged to
that principle, and do not intend and
am not expected to obtain any special
privilege for the Agricultural class
as against any other class, but will
endeavor, if elected, to see that Ag-
riculture, Labor, the Returned Sol-
diers, and all other classes, receive a
square deal. In regard to the Return-
ed Soldiers, being in close touch with
the soldiers that have been placed on
the land, we can see that this phase
of soldier settlement has been far from
satisfactory, that the problem of their
final satisfactory settlement is still
with us, and will need special consid-
eration. I am sympathetic to the fair
and just demands of Labor, I also be-
lieve that a fair and just return should
be made on actual capital in use, for

I believe in the immediate handing
over of the Natural Resources to the
Province, to be used and developed
only in the interests of all the people.
In regard to Transportation: A re-
valuation of the National Railways
down to an actual sound business basis
should make possible a material re-
duction in freight rates and thereby
compel the same reduction on all the
other railways.

The issues are many and varied and
I realize that it is out of the question
to go into them in detail in this brief
statement, but I hope and expect to
meet you and discuss these issues
during the campaign, and meanwhile
I would urge you to review in your
mind, the social, economic, and polit-
ical conditions that exist in Canada
today, and consider whether you are
satisfied with these conditions. If you
are not satisfied I would ask you to
consider whether the cause and prin-
ciples for which I stand are worthy
of your support in an attempt to bat-
tle for these conditions in the interests
of all the people.

D. W. WARNER,
U.F.A. Candidate,

Public Notice

Will the person who took a dark
grey overcoat from the G.W.V.A. bag
on Friday night, kindly return
same to T. C. Tibbitt at the Customs
Office. 35-31m

POSSIBILITY OF A POISON GAS

Are civilized nations at war prepared to adopt weapons that will enable them to wipe out an army of a million men in a few hours or to annihilate whole cities? Our Chemical Warfare Service assures us that the United States now possesses the means of doing this very thing. What are we going to do about it? The editor of 'The Scientific American' expresses his belief that the world at large is not ready to go to the Germans several points better in disregard of the humanitarian laws of war. All poison-gas warfare should be declared unlawful, he thinks, 'by international agreement of some sort. Unless some thing of this kind is done, the next war, he believes, will make the last one "resultful, by comparison," and will "wipe out mankind at a rate which will turn many a flourishing capital into a deserted village." The development of highly destructive weapons, he points out, has never yet prevented nations from making war, and if these horrors are to be averted, either war itself must be made impossible, or the nations must get together on this point if on no other. He writes:

"Mr. Chairman, the Chemical Warfare Service has discovered a liquid approximately three drops of which, when applied to any part of the skin, will cause a man's death. Much smaller amounts than this, or even vapors from the liquid, cause very severe, slow-burning burns."

"If the reader applies to the government printing office, at Washington, he can get therefrom a copy of the 'Report of the Third Session of the House Naval Affairs Committee,' and he will find there that the words above quoted form part of a statement by Dr. Bradner, chief of the research in the Chemical Warfare Service. Mr. Bradner goes on to remind the committee that the world-war showed it possible for an airplane to fly within hundred feet of enemy troops and machine them with impunity; and he goes on to state that if, instead of carrying machine guns, the attacking planes were equipped to carry a tank of this liquid (Lewisite) for discharge from nozzles similar to the ordinary street sprinkler, it would fall like rain, killing everything in its path."

"Then he becomes more specific, and tells us that one plane, carrying two tons of the liquid, could cover a stretch of country 100 feet wide by seven miles long in one trip, and that it could spray down enough of the liquid gas to kill every man in that area simply by the action of the gas upon the skin. Then, a little later, he becomes even more specific, and tells us that, during the Argonne offensive the whole First American army of a million and a quarter men occupied an area of approximately 40 kilometers long by 20 kilometers wide. If, he goes on to say, Germany had possessed 4,000 tons of this material, and say 350 planes, properly equipped for spraying, our entire First army would have been annihilated in from ten to twelve hours."

"Now 4,000 tons seems like a big lot of gas; but we already possess at the Aberdeen Proving ground, a huge poison gas factory (Ridgewood) which was capable, at the armistice, of producing 200 tons of gas per day, and it would be a simple matter by enlargement and duplication to put this country in a position where it could produce several thousand tons of gas for the supply of our armies and keep the supply going indefinitely. Yes, the future war would be so horrible as to make the last war resultful by comparison. Short as it will inevitably be, it will last long enough to wipe out mankind at a rate which will turn many a flourishing capital into a deserted village, and many a fair-campagna into a Sahara of lifeless desolation--for this gas, remember, is as fatal to vegetation as to human life."

"All this talk, however, about the poison-gas war of the future, is based on what we dare to believe is an altogether unvarnished assumption, namely, that the devil's own disregard of the humanitarian laws of war, imitated by the Germans at Ypres, is to be accepted and practiced by the world at large. If, in the forthcoming suggested 'Association of Nations' or the meetings on disarmament of the nations, or what-not, it be accepted that poison gas will be given in the face of the protest of that undoubtedly large majority of men who believe that honor, chivalry, and human kindness are not quite dead in our midst, and that the monstrous horror of the first gas attack at Ypres should not be the yardstick by which we measure our future military conduct."

SO MANY PEOPLE ARE NERVOUS

"Fruit-a-lives" the Greatest of all Nerve Remedies

This Fruit Medicine Restores Health

The increase in the number of persons suffering from Nervousness is well known; due, in a measure, to the reaction following the war. Nervousness, Headaches, Mental Depression, Rheumatism, Nervous Dyspepsia, Bad Heart Action, are the results of a disturbed condition of the Nervous System.

The nerves and the blood are so intimately, so vitally, connected that the condition of one is bound to affect the condition of the other. If the blood is laden with impurities, it is impossible to have strong, steady nerves.

The first essential in treating nervous troubles is to purify and enrich the blood. This "FRUIT-A-LIVES" will do. "FRUIT-A-LIVES" stimulates the bowels, kidneys and skin and purifies the blood. "Fruit-a-lives" improves appetite and digestion and insures food being properly digested, thus enabling the blood to carry wholesome nourishment to build up the body, particularly the nerves.

Men and women who take "Fruit-a-lives" for some form of nervousness—because they cannot rest or sleep or work or enjoy life—say that this fruit medicine is simply marvellous in its action.

Do a box, 9 for \$2.00, trial size, 25c. All dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

The engine and dynamo for the new power plant arrived this week and are being installed as quickly as possible. The street lights are also being put into place—Leduc Representative.

Election Address

To All Electors in the Strathcona Federal Constituency

Ladies and Gentlemen:

Believing that the time has come when a change of policy must take place to meet the pressing demands imposed on the people of Canada as a result of the great World War, and the untold methods of handling our country's affairs under the Party system of government, and because, that to obtain legislation that will be equitable and in the interest of all workers, professional, skilled or unskilled, we must return representatives to the coming election who have experience and knowledge of our country's problems, who will fearlessly stand for the just rights of all the people. For this purpose great organizations of Canada, such as those of Labor and Farmers, who stand for principles which, if truly followed, will give our country more democracy, are placing candidates in the field, who they believe will bring about reforms so much needed. At a joint meeting of the Labor Organization together with the Farmers' Club, a platform of reform was adopted, which was made up of professional, skilled as well as unskilled workers. I had the honor to receive the unanimous approval of the members of the Strathcona Federal Constituency. After giving careful consideration to the matter, I have decided to accept this nomination, because of the principles involved, which call for the cooperation of both Farmer and Labor organizations. I have been a member of both Farmer and Labor organizations for many years, and understand the aims and objects of both, and shall do all in my power to forward the interest of all workers hereafter this will be for the best interest of the Dominion. The platform on which I stand is the joint platform agreed to by the committees appointed by the returned soldiers, labor and farmers. This platform includes the platform of the Canadian Council of Agriculture, called the New National Alliance, together with the platform suggested by the returned men and labor. A substantial majority of the farmer delegates at Wetaskiwin were in favor of the joint platform, as shown by their votes. I think it clearly understood that I am not in the field to oppose the United Farmers of Alberta; but to give an opportunity to all farmer and other workers to cooperate in returning a representative who is broader than one class, who stands for the carrying out of the principles we have advocated for so many years in our U.F.A. We have reasons to believe that the so-called independent candidate of the U.F.A. Political Association has never severed his connection with the old party, and has proven himself hostile to labor, and for that reason is not acceptable to those who stand for equal rights for all.

Some of my special features of my platform are as follows:

- (a) By a graduated personal income tax
- (b) By a graduated inheritance tax on large estates
- (c) By a graduated income tax on profits of corporations
- (d) By a direct tax on unimproved lands values, including all natural resources

The gradual reduction of the tariff until free trade is established.

A National-Banking System.

Loans to farmers and business men at lowest possible rates, on the New Zealand plan.

An investigation into profits made during the war, and the taking of at least seventy-five per cent to meet the cost of the war.

The return to the provinces of their natural resources.

The strict enforcement of prohibition measures throughout the Dominion.

The Nationalization of all railways, together with Express, Telegraph and Telephone lines.

The perfecting as near as possible, of transportation and marketing facilities, and the opening up and investigation of possible world markets.

The establishment of a chilled meat trade with Great Britain.

I favor the reconsideration of the Returned Soldiers' problems, and support them in all their demands.

The above, together with the platform mentioned will I feel, cover the present situation. And I shall be glad to receive the support of all electors who stand for progressive administration.

Yours very truly
Rico Sheppard

INCREASE IN RURAL TELEPHONE RATES

Increases in rural rates and rates for exchange on the government telephone lines in the provinces, are contemplated by the provincial telephone department, to an extent sufficient to provide a depreciation reserve fund for the system, which has not yet been provided for.

This announcement was contained in a statement issued by Vernon W. Smith, Minister of railways, and telephones in the Greenfield government.

Coupled with this is the assurance that the increases will not be beyond the actual need of the system.

The service will be furnished as usual. It is the intention, too, states Mr. Smith, to eliminate any unnecessary expense and bring down the cost of maintenance and operation to a minimum. What the increase will be has not been decided.

HE COULDN'T ASK ANYTHING BETTER

"DIDN'T TAKE ME LONG TO SEE TANLAC WAS WHAT I NEEDED"

ED SAYS WINNIPEG MAN

"I'm a man that will always believe in Tanlac for it has certainly proved its worth in my case," said J. C. Elin, 688 Sargent Ave., Winnipeg, Man.

"I was in a bad fix, in fact was such a shape that every now and then I had to give up and lay off from work and rest. My stomach and kidneys were all out of order and I was all the time having headaches that nearly drove me frantic. I could hardly eat a thing but what it would sour and gasb would form and cause such an awful pressure against my heart, that I became alarmed for fear I had heart trouble."

"My back ached and pained me so that I didn't get to sleep. I was shattered that many a time I would lie awake nearly all night long, rolling and tossing. I went down in the morning and got out of bed and took all the nerve and will power I had to keep me going."

"Well, it didn't take me long to see that Tanlac was just what I needed and by the time I finished my second bottle my appetite was so big I could hardly get enough to eat. I have taken five bottles now and I don't believe there was ever a day in my life when I felt better. I have picked up in weight, feel strong and healthy and couldn't believe that Tanlac is to do any more for me than it has."

Tanlac is sold by leading druggists everywhere.

LETTERS FROM ALL OVER TELL HOW

BURDOCK BLOOD BITTERS

RELIEVES DYSPEPSIA

Among many of those who have written to me is Mr. A. Fleming, Scottish, Alta. He says in his letter, "I have been troubled with dyspepsia for some years. I tried several medicines, but they did me no good for a short time. I suffered with pains in my stomach, also a smothering feeling after eating, and could not eat any meat at all. I got run down and was very weak from rubbing the stomach of its necessary want. I also suffered from pains in my neck and back, and was unable to sleep. I used several bottles of Burdock Blood Bitters, and now am completely relieved."

D. D. D. has been on the market for the past 12 years; manufactured only by The T. Millum Co., Limited, Toronto, Ont.

ANNUAL CONVENTION

The annual convention of the Social Service Council of Alberta will be held in Edmonton on November 24th and 25th, 1921. It was decided at a recent meeting of the sub-committee that the first day be devoted entirely to the discussion of the problem of unemployment. Every affiliated organization is asked to send their full number of delegates and all local councils will be urged to send two delegates.

FALSE ECONOMY HAS NO VALUE

Buying Cheap Goods Just Because They are Cheap Does Not Pay (Copyright)

Economy is one of the greatest virtues but false economy is no more a virtue than anything else that is false. To be able to economize wisely is one of the greatest blessings that one can have, for it is the prerequisite to thrift and well-being. Too many persons, however, who think they have found the secret of true economy are practicing a false economy which is worse than financial waste.

For instance the man who buys a stove from a mail order house for \$9 because he thinks he would have to pay \$10 for one if he purchased it from his home merchant, is practicing a false economy, for the chances are that he would save more than \$1 in the end if he purchased the \$10 stove from the local hardware dealer.

There are several reasons why that is false economy. The first one is that dollar for dollar, the greater part of the merchandise sold by the mail order houses is of less value than that sold by the retail merchants of the smaller communities. The mail order business as a whole is built up on cheapness. In order to attract the

EXAMINER'S REVIEW PROVINCIAL MARKETS

(November 11, 1921)

CATTLE—Beef is higher, light robes and active buying at Edmonton advanced prices on good to choice steers. Top steers, \$3.75 to \$4.50; good \$3.25 and \$4.75; medium, \$2.50 and \$2.75; common, \$1.50 and \$2. Choice cows, \$2.50 and \$3; good, \$2 and \$2.50; medium, \$1.50 and \$2; common, \$1 and \$1.50; canners, 50c and \$1. Bulls will bring \$1 and range down to four bits. Choice calves, \$2 and \$2.75; common \$2 and \$3. Stockers and feeders are steady, heavy feeders, \$2.75 and \$3.75; stocker steers, \$2 and \$3; stocker heifers, \$2.00 and \$2.75. Stocker cows, \$1 and \$2.

HOGS—Prices are lower in Edmonton in line with other markets, and most sales during the week at closing price of \$9.

SHEEP—Edmonton prices slightly better, with lambs \$4 and \$7; wethers \$4.50 and \$5; ewes, \$3.50 and \$4. GRAIN—All prices have advanced, but everybody nervous since big decline. Opinion fairly general that the worst has passed in prices, and for a time at least there will be a revival on wheat and consequent improvement in other grains.

PRODUCE—Edmonton quotations on eggs advanced \$1 during the week with price now 10.50. Poultry market temporarily very poor, with flat prices on fowl and springs of 10c; ducks and geese 12c; turkeys in poor condition and down to 13c. Creamery butter carlot price, basic specials 27c; cutters, 14c; make light and storage being used to fill domestic orders. Cream and milk prices unchanged; cream receipts show heavy reduction.

WOOL—Steady and fine grades are cleaning up well and demand will extend to medium and coarse grades.

Eastern prices show little change.

PURCH—Fall lard and prices reduced slightly to meet lower grade of first catch. Fall muskrat 50c to 15c; coyotes, \$1 to \$7.

WHEAT—Firm and some small sales of "western" grades reported. It is not enough demand yet to warrant any change in prices, still around 25c and 26c, but prospects decidedly better, though immediate advances may not be expected.

TOWN TOPICS

H. G. (Bud) McDonald left the city on Tuesday for Prince George, B.C., where he expects to spend the winter.

George Blaney, of Devil's Lake, N. Dakota, was a visitor at the home of his cousin, V. C. French, last week.

On Monday morning last, the public schools in the city commenced opening at 9.30 a.m.

R. A. Felling left the first of the week for California, where he will spend the winter with his parents, and other relatives. He expects to return to Wetaskiwin in the spring.

The Catholic Women's League will hold a card party at the home of Mrs. E. J. Kelley on Thursday evening, November 24, admission fifty cents. Expenses are cordially invited.

It would appear as though winter and set in. The weather turned cold the first of the week, and the ground is now covered with a light fall of snow.

W. R. Shearing has tendered his resignation to the city as an official, and intends opening The Veteran Meat Market the first of December. His location will be adjoining Christopher's Grocery on McDonald Street.

J. E. Fraser went to Calgary on Monday evening to attend a convention of the secretary-treasurers of the municipalities of Alberta. He will also attend the convention of mayors and other representatives of the municipalities being held there this week.

On Sunday last, Rev. Mr. Rodgers of Lacombe and Rev. W. H. Irwin exchanged pulpits. Mr. Rodgers preached two very thoughtful sermons in the Methodist church, and Mr. Irwin conducted anniversary services at Lacombe.

Wm. Johnston, art teacher, of Edmonton, has been engaged by the public school board to teach art in the schools here. Mr. Johnston will give instruction on Monday at two o'clock p.m. on November 24. Miss McHugh, field secretary, will address the meeting, and Rev. and Mrs. Proctor are expected to be present. Refreshments will be served and all are cordially invited.

Miss Hall, who has been the efficient and obliging government nurse at Yorkford for some time, has tendered her resignation and left a few days ago for Winnipeg, where she expects to reside. A number of her friends met at the Driford Hotel dining room and tendered her a farewell dinner prior to her departure.

The Women's Auxiliary of Immanuel church will hold a tea and sale of home made cooking on Saturday, December 3rd, from three to six o'clock. The Women's Institute Girls' Club will meet at the home of Mrs. H. J. Montgomery on Monday evening next, November 21st, at 7.30. All girls over twelve years of age are cordially invited to be present.

The Scandinavian Baptist half yearly convention will be held in Wetaskiwin on Friday, Saturday and Sunday, November 25, 26 and 27, commencing at 2 p.m. on Friday and continuing on Saturday and Sunday. In addition to local ministers, Dr. Hedeon, of Chicago, will address the convention. Everybody is cordially invited to attend.

Mr. Smith has been making some alterations at the Driford, and now has a large, private dining room connected with his popular hostelry. The room was opened on Tuesday evening, when the Edmonton Rotary Minors were entertained. The number sitting down at one time was one hundred and four. The room is fitted up suitable for the use of any organization wishing to serve meals apart from the hotel.

After the conclusion of the church services in the city on Sunday evening last, a number of those interested in the Methodist church to hear Rev. C. H. McElchlin give an address on the work of the British and Foreign Bible Society. The election of officers for the coming year also took place, when Mr. C. A. Morris was selected as president, and Mr. J. I. Poole, secretary-treasurer, both officers being re-elected. The executive committee appointed is composed of all the resident ministers and Messrs. J. G. Griffiths, J. F. Ellis, H. N. Shaw, R. W. Manley, O. H. Romie John Borg and Frank Fox. The canvass for subscriptions will take place without delay.

See the samples of this season's greeting cards at The Times office.

EVIL TIMES

There is a crisis everywhere, and all the world is in despair. I read the news from day to day, from countries near and far, and I'm discouraged as I mark our prospects, desolate and dark. Oh, anarchy and doom and wreck and countless evils are on deck; some crisis every day appears and humps its back and wags its ears, and stationery cry, as they're long cried, "The tall must travel with the hide!" For six long years it's been the same, the crisis played its low-down game, and filled us with the dumps and blues and kept us shaking in our shoes. We have a crisis months ago, because no prices then were low, and profiteers were on our trail demanding all our hard earned cash. That crisis slumped, another rose, and now low prices are our foes; because the cost no longer soars, a thousand mills have closed their doors, and workless women walk the streets and clamor wildly for the oats and seek the alkali shrubs they were when "other crisis" had the floor. I'm tired of all this crisis stuff; they've fed me up—I've had enough. Let's drill along with sprightly tread and talk of happy days ahead, and practice thrift and do our stunts, and have some smiles instead of grunts—Walt Mason.
